

## CLARIFY YOUR CURRENT INVESTMENT GOALS

Follow these easy steps to select the investment mix that is right for you

The following questionnaire will assist you in identifying your appropriate investment portfolio. By considering your risk tolerance level, time horizon and personal financial goals, an appropriate investment mix will be determined.

Pick one answer for each question that most accurately describes YOU and check the circle associated with your answer. Then add up the points for your Investor Profile.

### 1. What category would you say best describes your investment goals?

**Growth** 50 points

I want to get the highest possible rate of return on my portfolio over the long term, and realize that the total value of my investments on occasion may decline significantly.

**Conservative Growth** 35 points

My first goal is the long-term growth of my investments, but I'm willing to accept a lower return to have less risk of a major decline in the value of my investments.

**Income and Growth** 20 points

I want my investments to produce a fairly steady stream of income and to grow without major declines in value.

**Income and Inflation Protection** 10 points

My most important goal is to receive steady, consistent income from my investments, but I'd also like my money to keep ahead of inflation over the long-term.

**Security** 0 points

I am willing to accept lower returns to minimize the risk of losing any of my money.

### 2. How soon do you expect to need the money you are investing?
